

PROGRAMME
of the Fair of Industrial Measuring Technology
and Non-Destructive Testing
CONTROL-TECH 2016

20 September - TUESDAY (Expo Day 1)

9.30-17.00 - Exhibition open to the public

10.00-CONTROL-TECH - gala opening ceremony attended by the guests of honour

10.30-11.30 - Official visit of the guests of honour to the Exhibition

10.00-11.30 - "Polish innovative methods for non-destructive steel-elements diagnostics - basics, implementation, benefits" - the seminar organised by NNT open for public - conference room in the F Exhibition Hall

12:00-13:00 – Workshop "Rapid internal stresses determination in steels with magnetic properties" workshop organised by NNT open for public, - conference room in the F Exhibition Hall

12.00-14.00 - The Competition Jury Panel session

13.30-16.00 - Workshop - "MATERIAL identification with the use of X-MET 8000 spectrometer" - organised by PCB Service open for public, - conference room in the F Exhibition Hall

19.00 - Gala Awarding Ceremony - invitation holders only

21 September - Wednesday (Expo Day 2).

9.30-17.00 - Exhibition open to the public

9.30-10.30.00 - NDT workshops - Materials hardness testing with the use of UCI mobile hardness tester." Testing equipment presentation - NewSonic SonoDur2. - organiser - TechControl, open for public - conference room in the F Exhibition Hall

11.00-12.30- Workshop - NDT - UT, PA, TOFD & TFM. The "Total Focusing Method (TFM) in Phased Array technology" - during the break - testing equipment presentations of KARL DEUTSCH GEKKO. open for public, - conference room in the F Exhibition Hall

13.00-15.30 NDT workshop - mobile DR i.e. "Digital Radiography (DR) in-field

application and automotive / aviation industry - an alternative to conventional radiography." - organiser - TechControl
open for public, - conference room in the F Exhibition Hall

22 September - Thursday (Expo Day 3)

9.30-1.00 Exhibition open to the public

15.00- The expo closes
