The quarterly scientific production Journal "Foundry Production and Metallurgy" is a unique edition for Belarus as it is a single professional publication for foundrymen, metallurgists and material engineers. The Journal is being published since 1997.

The founders of the Journal - Belarussian National Technical University, Association of foundrymen and metallurgists of Belarus and academic institute and "Institute of metals technology" of National academy of sciences of Belarus, as well as many leading enterprises of Belarus. The editor-in-chief of the Journal "Foundry and metallurgy" – Eugheny Marukovich, Academician of the Belarussian National Academy of Sciences.

The Journal is the member of the World Information electronic network DOAJ – Directory of Open Access Journals (Headquarters in Sweden, [www.doaj.org](http://www.doaj.org)). The Journal is recognized by VAK of the Republic of Belarus. Hundreds of scientific and technical articles in Russian and English in the field of foundry production and metallurgy are published. The magazine is widely read not only in the Republic of Belarus, Russia, Ukraine, but as well as in more than 20 countries of the world.

The editorial staff of the Journal invites you to submit for publishing scientific and production papers, share the experience with colleagues and put up your advertising materials on our the pages.
