THE 3D PRINTING DAYS - ONE OF THE MAINSTAYS OF INDUSTRIAL SPRING IN TARGI KIELCE

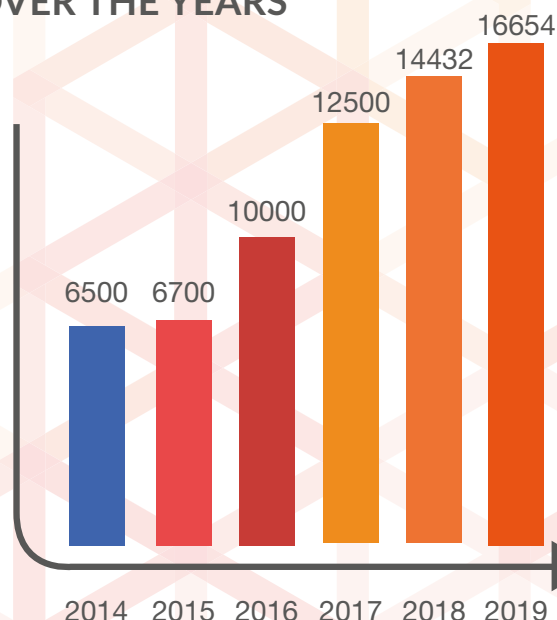

TARGI KIELCE'S INDUSTRIAL SPRING IS THE COMPREHENSIVE B2B EVENTS CYCLE DEDICATED TO METAL PROCESSING.

During Industrial Spring the expo halls become the showcase for metal processing machines, machining appliances, welding, sheet-metal cutting, complete production lines and ground-breaking 3D printers.

Exhibitors from home and abroad, extensive exhibition space, modern machines and cutting-edge technologies on display, and constantly increasing number of visitors - every year in Spring Kielce is the world's industrial capital!

NUMBER OF VISITORS OVER THE YEARS

The Central - Eastern Europe's
biggest 3D printing and
scanning expo

The event grows
and advances with every
consecutive edition

More than 70% of exhibitors
consider the expo the industry's
most important event of the year

Every consecutive year the
event has seen more and more
companies which professionally
deal with 3D printing.

**FOLLOWING MANY-YEAR TRADITIONS,
THE EXHIBITION IS THE SHOWCASE FOR
THE COMPREHENSIVE 3D INDUSTRIES
OFFERING .**

The expo hosts 3D scanning industry as well as rapid prototyping sector representatives. All major polish printer manufacturers and foreign equipment distributors are present at the event. Every consecutive edition the event has included new participants and increased its scope.

According to exhibitors' opinion, the most important factors that have influenced their decision to join the Expo:

- Always-increasing number of visitors
- The expo prestige
- Affordable prices
- Excellent customer-service quality
- Well-established position of the exhibition centre
- Extensive accompanying events programme (conferences and seminars, etc.)

**A PERFECT OPPORTUNITY TO ESTABLISH
BUSINESS AND TRADE RELATIONS AS WELL
AS TO SELL THE PRODUCTS ON SHOW.**

The event is complemented with the International Trade-Shows - the Exhibition of Metal Processing Technologies STOM, the EXPO-SURFACE, CONTROL-STOM, Kielce Fluid Power, WIRTOPROCESY, WELDING.

3D PRINT DAYS - ACCORDING TO THE EXHIBITORS' OPINION:

Tomasz Wojtczak, Head of the 3D Printers Department, Bibus Menos

The trade fair was very well organized, it enjoys the opinion of the best in the region. Our products generated huge interest. Easy access to all expo halls was very important. As always, everything was top-level.

Maciej Ślęzak, Sales Engineer, Igus

We are pleased that there were many customers interested in our products. There was a plethora at the expo of opportunities which give us the chance to expand. Great organisation of the event. Taking part in the expo was the right decision.

Michał Melon, Chief Executive Officer of UBOT 3D

We started our business activity three years ago and then, for the first time we also exhibited at Targi Kielce. We had a small stand of 8 sq m. Year after year our expo stand has expanded, because the 3D Printing Days attract well-targeted audience, the expo visitors do know what they need. We will certainly come back next year.

Engineer Bogusław Klein PhD., Product Manager at Laser TRUMPF POLSKA

This year's Targi Kielce's Industrial Spring has been excellent, just like all the previous editions. Lots of guests, many interesting conversations. The accompanying events plethora - 3D Printing Days and the additive manufacturing technology seminar also offer an important business meeting platform for us - this is where you can talk shop and specific issues.

WE LOOK FORWARD TO SEEING YOU
